08. Our Gift to You

We care about your wedding dress... here's why.

Clothesline Cleaners is proud to have been the leading Boise specialist in wedding gown cleaning & preservation for the last four decades. **It's your special day, and we're here to make sure your dress is in pristine condition, forever & always.**

Our gown cleaning & preservation process doesn't skip any steps for speed, it's a multi-day process to make sure your gown is treated with the upmost of care possible.

5 steps to clean & preserve gowns:

Step One: Inspect the Dress

Every dress is unique and has different treatment needs during the cleaning & preservation process. We unpack the gown in our dedicated fine garment zone, don our gloves and inspect your gown to assess the best possible treatment needs for stain & spot removal, cleaning, any bead or stitching repairs and more.

Step Two: Spot Treatment

It's proof of a truly special wedding day If your gown comes In with a few spots & stains from grass or food & drinks. We treat each spot appropriately to ensure they're completely removed.

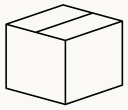

Step Three: Cleaning

We utilize our K-4, natural & safe solvent, to clean your wedding dress to pristine condition. The gowns are cleaned by themselves, with a process that's best for your gown's materials. The cleaning process is repeated until the gown is completely removed of any stains and tarnishes.

Step Four: Finishing

Finishing is a fancy word for 'pressing' - we steam & press your gown until It's wrinkle-free!

Step Five: Preserve

Our Keepsake Box Is our special gift to you! It's a beautiful box that safely stores & displays your wedding gown for decades.
